

Aisha Khan

AI Researcher at IIT Bombay | aisha.khan@iitb.ac.in | +91 98765 43210

Professional Summary

Academic and applied machine learning researcher specializing in NLP, transformers, and multimodal embeddings. Extensive theoretical background in matrix operations and custom loss functions, coupled with hands-on PyTorch engineering.

Work Experience

Lead Research Assistant - IIT Bombay ML Research Lab (2024 - Present)

Designing sparse-attention layers for multimodal architectures. Published a top-tier paper on language model alignment. Spearheading PyTorch model customization and training optimization.

Key Skills

PyTorch, Transformers, NLP, Sparse Attention, Large Language Models, Multimodal Learning, Linear Algebra, Python

Education

M.Tech in Computer Science, IIT Bombay (GPA: 9.8/10)
